Skill Development Resources

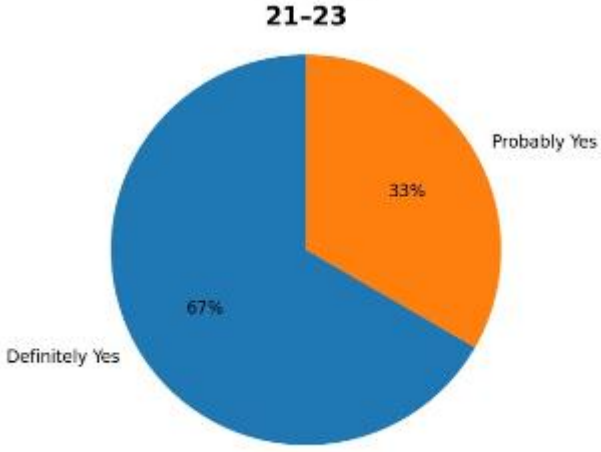

Digital responses received

Age-Wise Analysis of Positive Responses

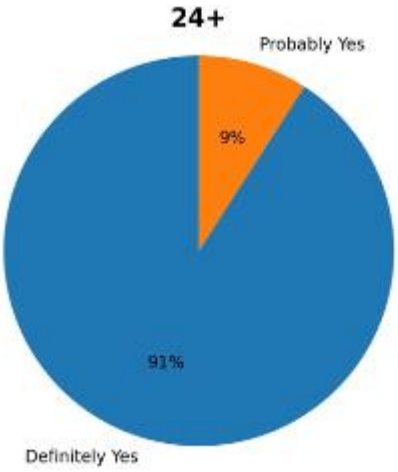

Total positive: 34

Total positive: 3

Total positive: 11

The data shows that women across all age groups strongly feel the need for a dedicated networking platform. The majority of respondents selected “Definitely Yes”, with the highest positive response seen among the 24+ age group (91%). Even among younger groups, 67% selected “Definitely Yes.”

Overall, the results indicate strong demand for WEN and support the idea of creating a dedicated networking platform for women entrepreneurs.
